# LET US DREAM

Community Conference 2025  
Volume 1, Issue 1

## Note from the Conference Lead

Dear All,

As we prepare for the upcoming Let Us Dream Community Conferences, I am filled with excitement and hope. These gatherings are not just events - they are part of a growing movement to build, empower, and transform communities. Each conference is a space where ideas are shared, dreams are nurtured, and collective actions are ideated.

Our world needs dreamers who dare to believe in change, and doers who work hand in hand to make it real. Together, let us dream boldly, act with courage, and create communities that uplift and inspire.

Looking forward to seeing you at the conferences as we continue this journey of hope and transformation.

**- Jimmy Cherian**

## About Community Conference by LUD

At Let Us Dream, we believe that meaningful change begins when people come together to share ideas, experiences, and hopes for a better future. The Community Conferences embody this belief, offering a vibrant platform for individuals from diverse walks of life to unite to inspire action, celebrate acts of service and nurture sustainable growth. At its core, community conferences aim to foster community empowerment through compassion, collaboration and service.

Each conference creates space to:

- Share innovative models of community service and research.
- Reflect on the successes and challenges in social work and development.
- Promote peace, harmony, and holistic growth across societies.

## What to Expect?

Every conference offers participants an enriching experience filled with opportunities to learn, engage, and act.

1. Inspiring Keynotes & Stories
2. Panel Discussions & Dialogues
3. Workshops & Group Activities
4. Celebrations of Changemakers
5. Networking Opportunities
6. Showcasing Projects & Stalls

# Why Should You be a Participant?

You should participate in the community conference because it is more than just dialogue - it is a space where knowledge is shared, connections are built, and collective action takes root. By taking part, you will have the chance to learn from researchers, practitioners, and grassroots leaders, celebrate changemakers who are transforming lives, and engage in collaboration among universities, NGOs, companies, and local organizations. Your presence will also help empower future leaders, inspire youth, and promote volunteerism as a way of life.

As we step into a new season of community conferences, we invite you to be part of this journey. Together, let us dream and act towards shaping compassionate communities and a better tomorrow. Whether you're a college student, local volunteer, business owner driving community projects, NGO worker, philanthropist, social worker, educator, administrator, retired professional, or simply someone passionate about community leadership - this is a platform to make a difference.

To volunteer kindly reach out to the Point of Contacts of your location in the above Link!

## Outbound Training Programme

On August 23rd and 24th, our youth leaders participated in an Outbound Training (OBT) program designed to nurture leadership, teamwork and resilience skills. The two-day experience blended fun challenges with meaningful learning.

Through activities like team-building exercises, problem-solving tasks, and trust-based games, participants discovered the importance of communication, collaboration, problem solving and adaptability. The program also encouraged self-reflection, helping young leaders recognize their strengths while learning how to support and inspire others.

The OBT was not just about stepping out of the classroom, but also about stepping up as leaders - ready to face challenges with confidence and creativity.
