

# LUD ANNUAL CONFERENCE

28th September 2024 | Pune, India  
Savitribai Phule Pune University  
Community Intervention and Development

The Let Us Dream Annual Conference 2024, themed “Community Intervention and Development,” was held at Savitribai Phule Pune University. The event aimed to enhance sustainable community development through focused interventions in health, education, and social welfare, fostering positive change at the grassroots level.

The conference focused on three main areas: promoting inclusive education for marginalized communities, improving access to essential healthcare services, and addressing social inequalities to build resilient communities. Key strategies included fostering partnerships between universities and local organizations, advocating for equitable health access, and implementing community-driven initiatives.

The event concluded with a changemakers session, showcasing innovative leaders dedicated to driving impactful change within their communities.

## KEYNOTE SPEAKER

**Dr. Dhananjay Bhole**  
(Sugamya Digital Solutions), shared insights on leadership and strategies for holistic community growth and intervention, further inspiring attendees to take meaningful action.

# LUD ANNUAL CONFERENCE

28th September 2024 | Pune, India

Savitribai Phule Pune University

Community Intervention and Development

## KEY HIGHLIGHTS

- **Education Panel:** Emphasizing the need for inclusive education models, particularly in rural areas, that integrate local knowledge and focus on gender equality and the education of disadvantaged communities.
- **Health Panel:** The importance of creating accessible digital tools and environments to empower individuals with disabilities, enabling greater independence through technology.
- **Social Panel:** Collaborative efforts with law enforcement and businesses to combat human trafficking, along with vocational training for survivors to help them rebuild their lives.
- **Changemakers Session:** In the Changemakers Session, Col. Suresh Patil, founder of Green Thumb Organization, highlighted the importance of community-driven reforestation through large-scale tree planting, showcasing the impact of collective citizen action in environmental conservation.

Overall, the 2024 conference fostered collaboration and innovative solutions, empowering communities to address key social, health, and educational challenges, and paving the way for sustainable and inclusive progress.
