Empowering Communities

## VISION

Empowering local communities for sustainable global impact and improvement.

## MISSION

Providing global and diverse platforms for enhancing the holistic (Personal, Social and Professional) and sustainable development of individuals through collaborations and networking for empowered communities.

## SUSTAINABLE DEVELOPMENT GOALS

Let Us Dream is a locally rooted and globally established not-for-profit organization. Since its inception, it has envisioned the notion of globally interconnected communities, where no one and nothing stands alone.

Grounded in principles of volunteerism, collaboration, and networking, Let Us Dream promotes the idea of holistically developed, sustainable communities worldwide.

### CORE VALUES

- Inclusive Collaboration
- Passion for Service & Stewardship
- Talent Development & Mutual Empowerment
- Continuous Commitment for Improvement & Innovation
- Global Perspective and Social Commitment

Currently, the organization strives to accomplish its goal through Six (06) Wings and supported by Four (04) Enablement Teams.

Let Us Dream, unlike many other organizations, does not focus tangible assets, rather we want to build and empower the intangible assets of every individual and community. Let Us Dream has evolved into what it is today on account of the multitude of individuals who have believed and contributed in their own way. We want to take this opportunity to thank all those individuals who are investing their time, energy, and a portion of their lives to help to achieve the growth of the organization. Their commitment, selfless dedication, passion, innovative contributions and insights continue to resonate within the organization, influencing its daily activities.

Expanding this program gradually to more individuals who can bring about more positive impact in our local communities globally is our aspiration for the organization. Guided by Mahatma Gandhi's words, "Be the change that you wish to see in the world," we remain committed to this mission. Dr. A. P. J. Abdul Kalam, who championed youth-driven social change, and St. Kuriakose Elias Chavara, a symbol of social transformation and empowerment, continue to inspire this global movement.
